Udaan's Development model provides a structured framework aimed at delivering a high quality solution to the clients. The Udaan development model has been refined over a period of time by Udaan's leadership who have a total experience pool of over 10 years between them.

EVERY PROJECTS

HAS ITS **6** STAGES

PLANNING

Every project begins in the planning phase. In this phase, we will work with you to discover your needs, wants, and true objectives so can plan a complete project up front, avoiding costly delays and unforeseen challenges later on.

DESIGN AND SAMPLES

In this phase, we will create mockups and prototypes based on information gathered during the previous phase to show you a visual representation your needs early on in the project.

DEVELOPMENT

In this phase, we will begin development based on the technical and design specifications laid out in the planning phase and will perform regular functional tests so we can correct any problems during the development process rather than addressing them after project completion.

TESTING

We perform thorough testing on all sites prior to final launch. To ensure that your website is functioning properly, we will simulate heavy stress to measure performance and test various browsers, operating systems, and devices with the site to be sure that it is responsive and performs well across all platforms.

LAUNCH

The final launch of your website/mobile app can be stressful. Even with thorough testing throughout development, unforeseen challenges can arise.

SUPPORT

Once we successfully launch your website / mobile app, you will still require a technical partner to support ongoing needs. To provide you the additional support you need, we offer a wide variety of support services for our completed projects, including monitoring and optimization.

OUR CUSTOMERS

Udaan is powered by intellect and driven by values. Speed, quality and competence are our mission. We assure you for best in class service and support. For any kind of web or client-based solutions or services you can visit our website www.udaantechnologies.com

DON'T TAKE OUR WORD FOR IT

At Udaan our clients are also our greatest advocates. It is our dedication to add value to our client's business that converts customers to clients and clients to business partners. Our clients are our greatest assets and marketing channel!

JESPER STRANDBERG, CRMPARTNER AB

Ritesh and his team of developers have been really good at capturing our needs and translating them into solutions. Their knowledge of development and understanding of Shopify & Shopify APP is very high and they make an effort to produce the best possible solution with quality. Some areas of the project were new to them which the team put in the effort to solve very well. I can strongly recommend contacting these people if you need good resources for your project.

KEVIN REYNOLDS, SMILEFAST

Its been an absolute pleasure working with Udaan Technologies, I have been provided with a talented and capable team. Udaan Team has been outstanding in providing the solutions even though the tasks he undertook was very challenging. I can strongly recommend them for any projects and I am definitely looking forward to working with them in the near future.

ERIC WARNER, STYLETRAIL

I had a pleasant experience working with Udaan Technologies team. This was a large project that was complex in nature and was very well executed. Great experience. I will continue work with Udaan to support my web application.

KARAN GOYAL, MOONGLADE

Udaan Team was very valuable for my project. Played a key role in my dating apps and fulfilled every requirement while sticking to the timeline. Took time out to understand the requirements and did the needful with patience. They are very cordial and punctual. Did the job absolutely as per the requirement! I would definitely HIRE UDAAN TEAM soon.

DANIELLE MORRIS, COBO BOTTLE

Udaan Team completed all tasks to the best of their ability and proposed new solutions to areas that we kept experiencing issues. They were very communicative and helped us understand the issues as well. Looking forward to working with him again .

MARK HIDE, PLANET WISE GROUP

Another great experience with Udaan. This is my second project with Udaan and it's been a great experience. The SaaS platform they've created has had many admiring comments. The whole team got behind the project to ensure it was completed on time and on budget. It looks brilliant and, as importantly, works exactly as it should. I'll be scoping the next project for them straight away. Hire them.

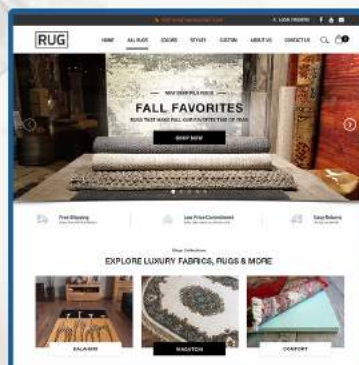

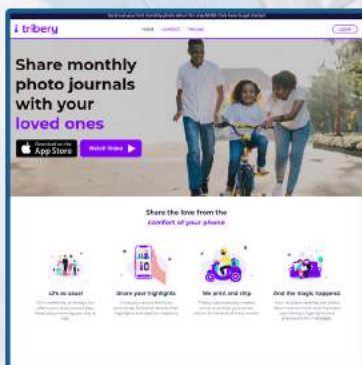

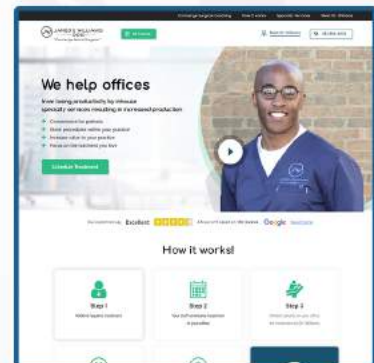

OUR PORTFOLIO

WEB DEVELOPMENT

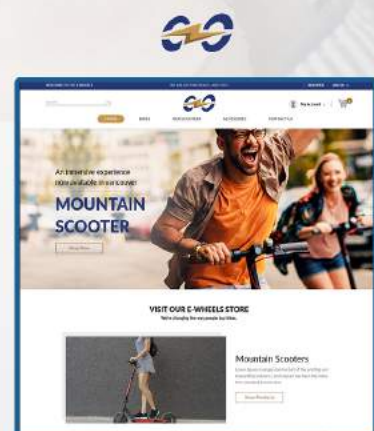

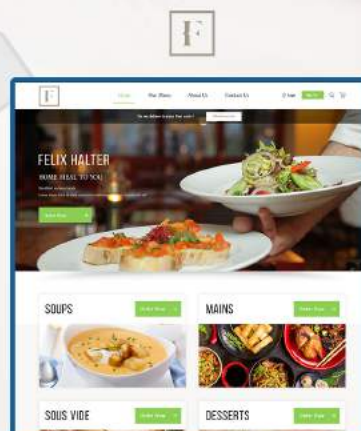

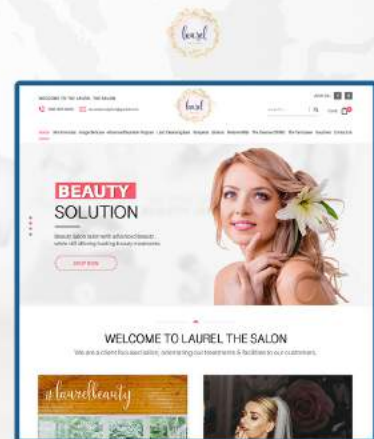

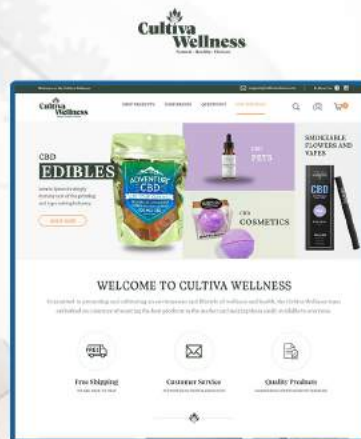

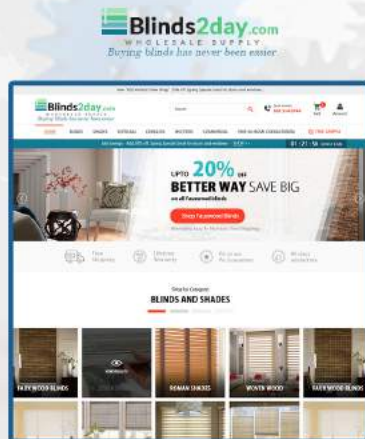

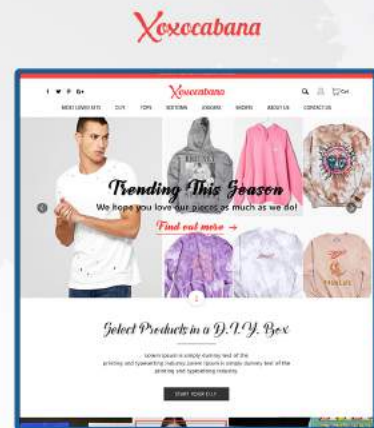

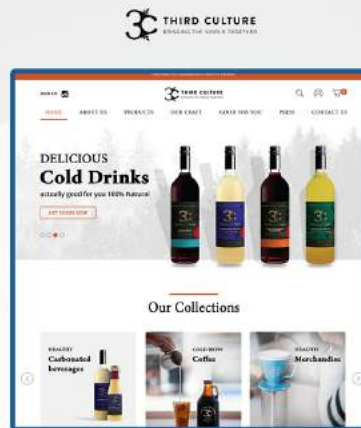

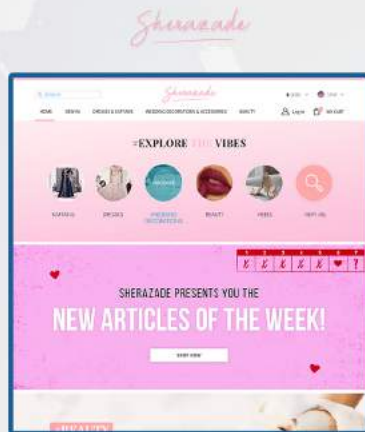

Udaan have engaged in a very complicated development and performed very well, adding value and being a good communicator and developer. Changes were allowed during the project without extra cost. Due to changes the project was delivered later than original planned date, but to be honest this was as much at my request."
